THROUGH THE YEARS Kenny Rogers

[Intro]

G Em Am D7 Bm Em D7

[Verse 1]

```
  G               B7                 Em
I can't remember when you weren't there,
G7            C         D        Bm   D7
When I didn't care for anyone but you.
  G                        B7               Em
I swear we've been through everything there is,
                     G7              C
Can't imagine anything we've missed
                     Bm Em        C            D
Can't imagine anything the two of us can't do.
```

[Chorus 1]

```
           G
Through the years
     Em           Am
You never let me down,
            D7                  Bm
You've turned my life around.
        Em                    Am
The sweetest days I've found
                      D7
I've found with you.

             Bm
Through the years
       Em                Am
I've never been afraid,
       D7                          Bm
I've loved the life we've made
        Em             C                Am
And I'm so glad I've stayed right here with you

[Verse 2]

```
G                B7             Em
I can't remember what I used to do,
G7             C   D            Bm    D7
Who I trusted, who I listened to before.
 G                      B7           Em
I swear you've taught me everything I know
                  G              C
I can't imagine needing someone so.
                          Bm
But through the years it seems to me
           C        D
I need you more and more.
```

Through the years,
Em                        Am
Through all the good and bad,
